Training Tracker

The **Training Tracker** is a web-based solution for EH&S managers, business and HR administrators to conveniently keep track of their employees' training requirements and qualifications for one or multiple facilities. The application eases viewing and recognition of employee's certification, pending or completed, and functions as a database which handles:

- Class scheduling and certification
- Employee training tracking
- Database for OSHA, EPA, DOT and other training requirements
- Customized training plans, assignments based on job description, title, location or department
- E-mails to employees scheduled to attend class
- Integration or independence from other M3V software applications such as Task Manager or Chemical Management Navigator.
- Monitoring and recordkeeping requirements
- Downloads from existing databases or spreadsheets
- Exporting info into spreadsheets
